HIKVISION

A Unified Solution for Multi Academy Trusts

Hikvision's unified ecosystem of commercial displays, security systems, and education-specific software provides a comprehensive solution that meets and exceeds the needs of Multi-Academy Trusts. From enhancing classroom engagement to securing school environments, our future-proof technology supports the strategic, operational, and educational goals of MATs.
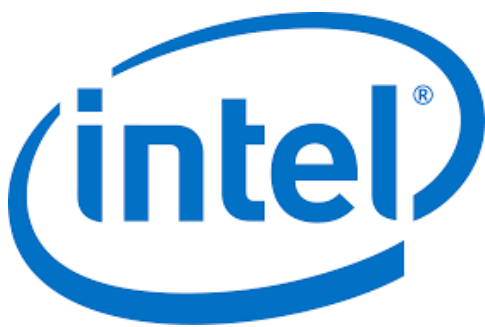

We enable MATs to:

- Empower Teachers with interactive, easy-to-use tools that enrich student learning.
- Safeguard Students and Staff with robust security solutions that are seamlessly managed.
- Support IT Directors with open, scalable architecture that adapts to evolving needs.
- Deliver Value for CFOs with long-term, cost-effective investments.
- Provide Strategic Insights for CEOs to align technology with growth and innovation.

By fostering close partnerships, offering comprehensive support, and delivering future-proof technology, Hikvision ensures that MATs can confidently embrace digital transformation, achieve their goals, and drive success in education.

Hikvision Commercial Displays offer a suite of education-specific software designed to empower teachers and enhance student learning. With tools for interactive lesson delivery, real-time content sharing, and seamless classroom management, they streamline both teaching and administrative tasks. These solutions help educators create engaging, dynamic learning environments, ultimately supporting improved educational outcomes for students.

GYNZY

Bring your interactive whiteboard to life
Gynzy enables you to manage the classroom, increase student engagement, and build lessons efficiently—so you have time to teach again.

Access, prepare, and share lessons from anywhere
Enjoy a seamless, Google-integrated experience.

ClassIn X Education Software

ClassIn build Learning Environments. Not Conference Rooms. Because of our focus and specialty, we're able to handle any teaching modality there is – from fully virtual, to hybrid (some remote, some in-person), to 100% in-person, blended learning.
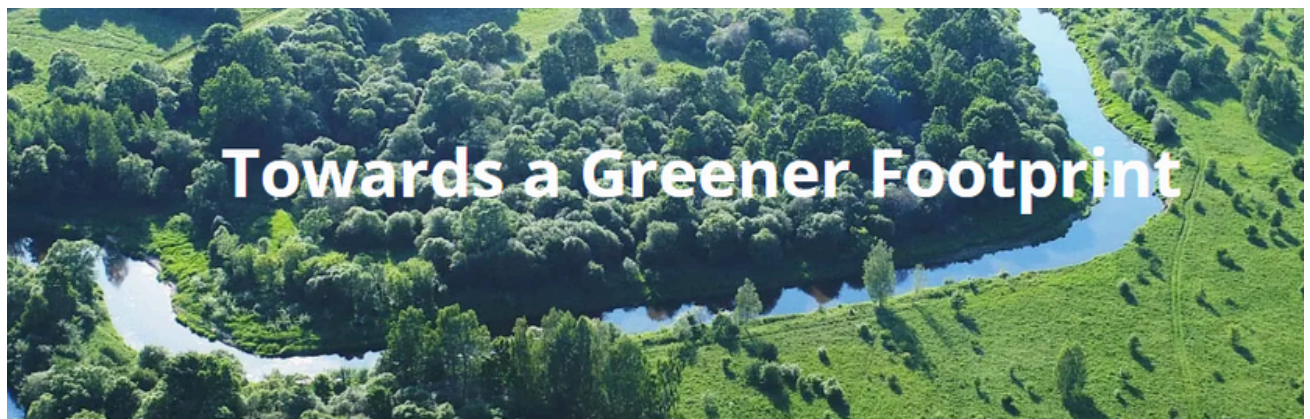

Content specific tools and resources built in partnership with examination boards in the UK for GCSE and A-Level.

- 20+ specialized online teaching tools
- Instant Messenger System: Smooth communication between teachers and students
- Assignments & Grading: Easy-to-manage homework and grading with high flexibility
- Learning Reports: Insights into learning behaviors to keep track of long-term progress
- Class Management: One intuitive backend system to manage all classes and personnel and view analytics
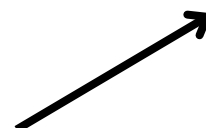

Eco-Solutions

Hikvision is committed to integrating corporate social responsibility and sustainability development philosophy into our business, while also being driven by technological innovation. We are dedicated to fulfill our global responsibilities to create lasting value for customers, improve social well-being, and work together with partners to ensure harmonious co-existence and sustainable development globally.

The Eco-Solutions Program, is designed to offer a valuable service for collecting and recycling existing AV solutions. This initiative not only supports our end users in upgrading their technology but also significantly contributes to reducing carbon emissions.

What are the benefits?

- Collection of Non-Hikvision branded screens and accessories
- Collection of Pallets and Packaging
- Collection of Cabling, Wall mounts, AV plates, etc.
- No minimum quantities required
- Certificates of destruction and Data destruction certificates
- Regular reporting with C02 reduction calculations

Ask about our training initiatives

HIKVISION®

Support Matters!

Service Matters!

While innovative products may captivate with cutting–edge features and design, it is the quality of service that ultimately defines their true value.

Service represents a steadfast commitment to customer satisfaction, acting as the vital connection between the product's potential and its actual impact in the real world.

Training

The curation of a bespoke training strategy, aligned to digital and educational outcomes.
An agile plan to evolve and grow over the lifetime of the project.

Support

More than just a phone number! Our support includes multi-channel options like live chat, a dedicated team of technical experts, and comprehensive performance metrics and reporting.

Service Delivery

A central hub for products based in the UK, dedicated stock holding, with a service **guarantee** on all products.

Price Protection

Budget planning, forecasting, and fair market value. We Promise to not increase costs for a minimum of **12 months**.

Summary

Hikvision's solutions are more than just technology — they are a strategic partner in the long-term success of Multi-Academy Trusts. With future-proof displays, robust security, education-specific software, and ongoing support, Hikvision empowers MATs to optimize learning environments, protect their schools, and scale efficiently.

Our unified ecosystem not only addresses current needs but also positions MATs for a dynamic, digital future where innovation drives outcomes for teachers, students, and administrators alike.
